John,

last week Paul and I met with the Millers. The Division wants to give partial release on 2.21 acres with 2.29 acres of active mining (including the mine road and loadout) for a total of 4.5 acres. The Division calculated the bond for the areas to be \$17,500.00.

The current bond is for \$14,000.00 so this is a \$3,500.00 bond increase.

Does the BLM concur with the bond and the partial bond release?

Wayne

Yes. That is acceptable to BLM.

Thanks!
